

Communities Need Clinics: Care Throughout Pregnancy

Percentage of clinics by type that offer care at each gestational age

ABORTION CARE THROUGHOUT PREGNANCY DEPENDS ON INDEPENDENT CLINICS

The majority of clinics providing abortion care at every stage of pregnancy -- and especially as pregnancy progresses -- are independent clinics.

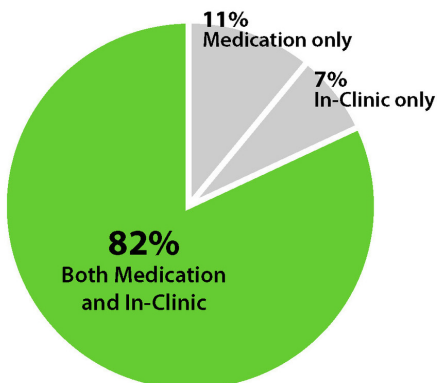

INDEPENDENT CLINIC CLOSURES DISPROPORTIONATELY IMPACT ACCESS TO CARE THROUGHOUT PREGNANCY

Of the 50 independent abortion clinics that closed since 2016, more than 82% provided care after the first trimester; as clinics close, access to care throughout pregnancy decreases dramatically.

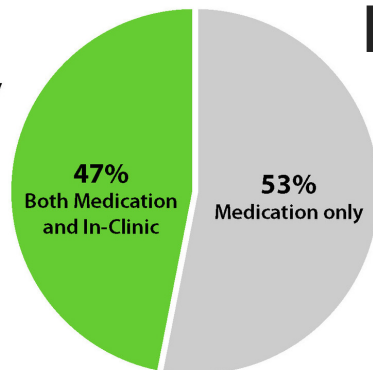

50 independent abortion clinics have *closed* since 2016

More than **82%** of these clinics provided *care after the first trimester*

Independent Abortion Clinics

Other Clinic-Based Providers

INDEPENDENT ABORTION CLINICS PROVIDE MORE COMPREHENSIVE CARE

Independent clinics are more likely to provide in-clinic care, which is crucial to access throughout pregnancy.
